

HOUSING IS HEALTH. EVERYONE DESERVES

IT
CANCEL RENT / FREEZE EVICTIONS / HOUSING
FOR ALL

Housing is a life or death necessity -- the pandemic has made this much clear. Yet, buildings lay vacant as we're threatened with evictions, sweat to cover our rents and make the next mortgage payment. Now is the time to create permanent housing for the homeless, increase the rights and securities of renters, invest in quality housing for all.

It's immoral and wrong for the state to keep any homeless in tightly-packed shelters where coronavirus can spread rapidly. All homeless should be moved to safe, quality housing as fast as possible.

If you cannot afford your rent it should be reduced. Property owners have received a mortgage moratorium and tenants, in turn, should receive an eviction freeze and rent cancellation for the duration of the pandemic.
